

## DATA PRIVACY AND PROTECTION

Identify sensitive or critical data (GDPR, PII, PCI PHI, IP, etc.) to right size the necessary protection and handling of those data types.

By understanding your data requirements and leveraging data discovery tools we, rationalize how your data is exchanged, handled, and stored in order to maintain compliance, meet your business objectives and protect your brand.

### DATA PRIVACY & PROTECTION SERVICES

Our team is knowledgeable in the privacy laws dictated by most countries and the demands of customers. By understanding your data privacy requirements and leveraging data discovery tools, we are able to rationalize how your data is exchanged, handled and stored in order to:

- Maintain compliance
- Meet your business objectives
- Protect your brand

Fellsway Group's services are designed to help you identify sensitive or critical data privacy requirements (GDPR, PII, PCI, PHI, IP, etc.) in order to right-size the necessary protection and handling of those data types.

All Data Privacy & Protection services are customized based on your specific company factors (i.e. size, industry, maturity, etc.).
